OFF-SIDE PASSES

The puck may be passed forward by any player to a player of the same side in any one of three zones into which the ice is divided, but may not be passed forward from a player in one zone to a player of the same side in another zone, except by players on the defending team who may make and take forward passes from their own defending zone to the "center line" without incurring an off-side penalty. This off-side pass, however, must be completed before the puck reaches the center line—otherwise the play would be illegal and the puck faced at the spot from which the pass was made. If the puck passed forward from one zone to another is taken by a player of the same side who was not in the zone from which the pass was made, that player shall be considered "off-side," play shall be stopped and the puck "faced" at the spot from which the pass was made. The position of the player's skates and not that of his stick shall be the determining factor in deciding the "off-side." (A player is "off-side" when any part of his skate is over the outer edge of the blue line.) (A player actually propelling the puck who shall cross the line ahead of the puck shall not be considered "off-side.")

CENTER ICE SPOT AND CIRCLE

A circular spot six inches in diameter shall be marked in blue exactly in the center of the rink and with this spot as a center a circle of 15 feet radius shall be marked with a line two inches in width also in blue.

HOCKEY RULES SIMPLIFIED

SCORING

When the puck is put fairly into the goal by means of the stick or if it should carom off any part of a defending player, a goal is scored. The duration of a match is 60 minutes divided into three periods of twenty minutes each. Rest periods of ten minutes are allowed between the playing periods.

STOPPING THE PUCK

A goal-keeper may stop the puck in any way he chooses, but must not throw it forward.

FALLING ON PUCK

No defending player, except the goal-keeper, shall be permitted to fall on the puck when the puck is within the goal crease. For infringement of this rule, play shall immediately be stopped and a penalty shot shall be ordered.

THE PENALTY BENCH

Each rink must be provided with a bench capable of seating eight persons, for the use of penalty timekeeper, timekeeper, scorer and penalized players.

TIMING DEVICES

Each rink must be provided with a gong or other suitable sound device for the use of timekeepers. Each rink must be provided with some form of electrical clock in order that spectators, players and officials will be properly informed as to the time element at all stages of the game.

HOCKEY EQUIPMENT

The Hockey Stick

Hockey sticks shall not exceed 53 inches from the heel to the end of the shaft and 14 1/4 inches from the heel to the end of the blade.

The blade of the stick shall not exceed three inches in height except in the case of the goal-keepers' sticks which shall not exceed 3 1/2 inches except at the heel where it must not exceed 4 1/2 inches.

The stick, unless otherwise permitted, shall be made of wood and without any projections.

A match misconduct penalty shall be imposed on any player except a goal-keeper, using an over-size stick. A penalty shot shall be awarded against any goal-keeper using an over-size stick.

GOAL-KEEPER'S PADS

The leg guards worn by goal-keepers shall not exceed ten inches in extreme width when on the leg of the player.

DANGEROUS EQUIPMENT

The use of pads or protectors made of metal or of any other material likely to cause injury to a player is prohibited.

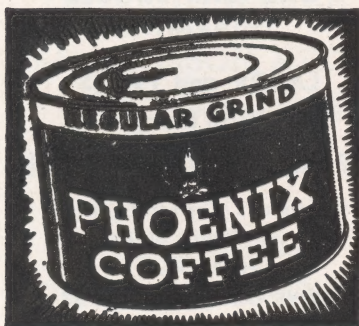

THE PUCK

The puck shall be made of vulcanized rubber or other approved material, one inch thick and three inches in diameter and shall be of approved make.

SKATES

Hockey skates shall be of approved design. The use of the skates known as "reachers" or of any skates so designed that they may cause injury is prohibited.

Coliseum Conveniences

TICKET INFORMATION

In this age when parking is a distinct problem, we feel that we are offering a decided advantage to ticket purchasers for hockey and other Coliseum events by maintaining box office hours here at the Coliseum daily, week days and Sundays, from noon until 10:00 at night. Yellow curb space directly in front of the building is to be maintained so that customers can drive up, park, purchase tickets and leave with a minimum amount of delay. Then, too, with the entire supply of tickets within the vision of the person selling, you are always assured of getting the best seats available at the moment you are making your purchase. No more of this having Row 17 available at one box office and maybe Row 7 at the other. You always get the best seats at the Coliseum box office. We have found this was not possible with the supply of tickets divided between two box offices in different locations. Telephone reservations will be accepted for box and side mezzanine seats, and a maximum amount of time given to the purchaser to pick them up. End mezzanine reserved seats at \$1.00 will continue to be on sale at the Coliseum on the day of the game only.

ENTRANCES

For the convenience of those who have purchased their tickets in advance, entrances have been established on the south side of the building, the side nearest to the south parking lot and street car gates. These doors can be used only by those persons who have their tickets. All box offices are located on the north side of the building.

PARKING

Parking is available in the Cattle Barn just west of Coliseum. Parking space, 35c per event.

For the convenience of those who leave their cars outside the Fairgrounds parking lots and also as a safety measure, the Coliseum management suggests that these persons enter the grounds by the way of the street car gate. In that manner, they will avoid the hazards of traffic at the automobile gates and also will be afforded a smooth walking surface from the street car loop to the Coliseum.

REST ROOMS

Rest rooms for both ladies and gentlemen are located at both east and west ends of the Coliseum for your convenience.

REFRESHMENTS

From ten to fifteen refreshment stands and the Grill Room are always open to serve you before and after the games and during the intermissions between periods.

"HOCKEY"

By JOHN KIERNAN, New York American

Compliments of the International Hockey Hall of Fame, Kingston, Ontario

I'm a fairly peaceful man, and an old-time baseball fan,
You can hear me yell when Heilman hits the ball;
And I howl when Ty Cobb stabs one, and I growl when Speaker
grabs one,
And I roar when Babe Ruth's homer clears the wall.

But the diamond sport is quiet to that reeling, rousing riot,
To a slashing game of hockey at its prime;
It's a shindig wild and gay; it's a battle served frappe;
Give me hockey—I'll take hockey—anytime.

Once, when crazy with the heat, I coughed up to buy a seat,
Just to see a pair of robbers grab a purse.
It was clinch, and stall and shove, and "please excuse my glove,"
Till I blessed them with a healthy Irish curse.

But for fighting fast and free, grab your hat and come with me,
Sure the thing that they call "boxing" is a crime,

And for ground and lofty whacking, and enthusiastic smacking,
Give me hockey—I'll take hockey—anytime.

I've an ever-ready ear for a rousing football cheer,
And I love to see a half-back tackle low,
It's a really gorgeous sight, when the boys begin to fight,
With a touchdown only half a yard to go.

But take all the most exciting parts of football, baseball, fighting,
And then mix them up to make a game sublime,
Serve it up with lots of ice, you don't have to ask me twice,
Give me hockey—I'll take hockey—anytime.

Yes, for speed and pep and action, there is only one attraction,
You'll see knockouts there a dozen for a dime,
When the bright steel blades are ringing, and the shinny sticks are
swinging,
Give me hockey—I'll take hockey—anytime.

Tips on Skating

By National Hockey Guide

Be Natural—Relaxed. Any beginner can find the "key" to good skating by watching good skaters. Notice how free and easy they glide along—relaxed. Relaxation permits proper balance, body rhythm and graceful, easy stroking.

Bring Legs Close Together. When you start out, your legs should be close together and should be kept fairly close as you skate.

Bend Your Knees. Allow the knees to bend naturally, just as you do when walking. The longer the stroke, the more the knees should bend.

Heels First. As you bring the foot forward for the next stroke, the heel of the skate should touch the ice first. Meanwhile, the foot that is going back should lift the heels of the skate off the ice first, pushing with the toe of the skate as it is lifted from the ice.

Arm Motion. Whichever foot is going forward, your arm should swing with it. For example, when the right foot goes forward the right arm should swing forward, and then backward when the foot goes back. In this way you maintain better balance and also pick up more power for the stroke.

Turn Shoulders. To illustrate, when the left foot is forward, the left shoulder should be turned slightly to the angle of your stroke and the left arm swinging forward in the same direction. This co-ordination of body rhythm and stroking makes for easier balance—adds power to the stroke.

Look Ahead—Not Down. Looking down throws the body off balance, hinders complete relaxation, and the result is you make no progress as a skater. Look ahead. You will balance yourself better and you will skate better.

Turning Corners. When making a turn, your eyes and head should turn first, then the body. Body should lean slightly toward the inside of the turn you are making.

How to Gain Speed. It is natural to bend the knees more when you want to gain speed. The greater the bend in the knee, the longer the stroke, the greater the power and push at your command.

- Back-Checking**—Legal. To check your opponent closely after your rush has failed.
- Beefing**—Annoying. A player who is constantly "beefing" or complaining to the Referee.
- Boarding**—Illegal. To illegally check an opponent into the boards.
- Body-Checking**—Legal. To check a player by using your body.
- Butt-Ending**—Illegal. To drive the butt-end of the stick into an opponent's body.
- Charging**—Illegal. If more than two steps or strides are taken before checking an opponent.
- Cross-Checking**—Illegal. A check delivered with both hands on the stick and no part of the stick on the ice.
- Dangle**—To skate fast.
- Deke**—To "deke" or feint an opponent out of position.
- Elbowing**—Illegal. To use the elbow in such manner as to in any way foul an opponent.
- Flip-Pass**—Legal. To pass a puck to a teammate by flipping it a few inches off the ice.
- Fore-Checking**—Legal. To go in your opponents' zone when they are in possession and break up their play before it has a chance to form.
- Freezing Puck**—Legal. When two players are battling for the puck against the boards, one will hold it with his skate or stick to force a face-off.
- High-Sticking**—Illegal. Carrying a stick above the height of the shoulder. To deliberately check a player with the stick, usually in the face.
- Holding**—Illegal. To hold an opponent with hands or stick or in any other way.
- Home Free**—Legal. When a player is in the clear with no one to pass excepting the goaltender.
- Hooking**—Illegal. To impede, or try to impede, the progress of an opponent by hooking him with the stick.
- Hook-Check**—Legal. To go to one knee, or stoop and sweep out your stick in a hooking motion to gain possession of the puck.
- Hoisting**—Legal. If a clean body check is delivered and the checked player goes in the air, he has been "hoisted."
- Icing the Puck**—Illegal. To deliberately shoot the puck from your half of the ice across the red goal line of the opposing team when your team is at equal or superior strength.
- Interference**—Illegal. To interfere or impede the progress of an opponent who is not in possession of the puck or to deliberately knock the stick from an opponent's hands or prevent him from regaining his stick.

ICING THE PUCK

For the purpose of this Rule, the center line will divide the ice into halves. Should any player of a team equal or superior in numerical strength to the opposing team shoot the puck from its own half of the ice beyond the goal line of the opposing team, play shall be stopped and the puck faced off at the face-off end spot of the offending team unless on the play the puck shall have entered the net of the opposing team, in which case the goal shall be allowed.

If the puck was so shot by a player of a side below the numerical strength of the opposing team, play shall continue and the face-off shall not take place.

If, however, from a face-off, the puck shall go beyond the goal line in the opposite

half of the ice, it should not be considered a violation of the Rule.

If, in the opinion of the linesman, a player of the opposing team, excepting the goal-keeper, is able to play the puck before it passes his goal line, but has not done so, the face-off shall not be allowed, and play shall continue.

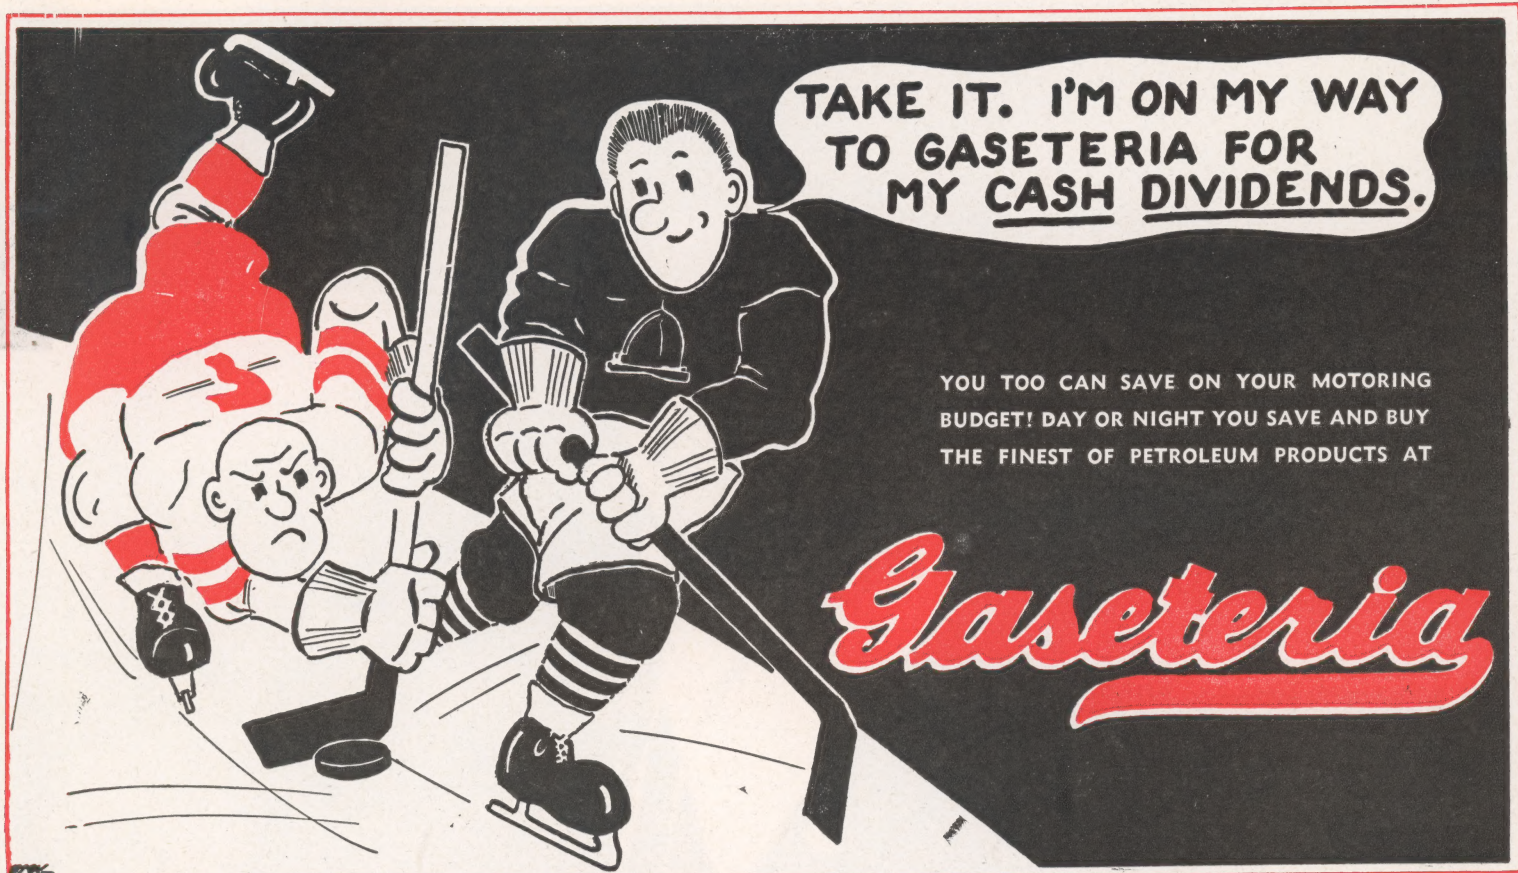

If the puck shall touch any part of a player of the opposing side or his skates or stick before it shall have reached his goal line, or shall have touched the goal-keeper or his skates or his stick at any time before or after crossing his goal line it shall not be considered as "icing the puck" and play shall continue.

If, in the opinion of the linesman, a legal pass has been attempted by a player to another player of the same side and the puck

is or is not touched by any part of this player and goes beyond the opponents' goal line, it shall not be considered as "icing the puck" and the play shall continue.

If the linesman shall have erred in calling an "icing the puck" infraction when a team is below the numerical strength of its opponent, the puck shall be faced five feet outside the defending zone of the team at the greater strength and midway between the sides of the rink.

If the linesman should have erred in calling an "icing the puck" infraction when both teams are at equal numerical strength, the puck shall be faced in the neutral zone at face-off spot farthest from goal of team last in possession.
